A World of Possibilities

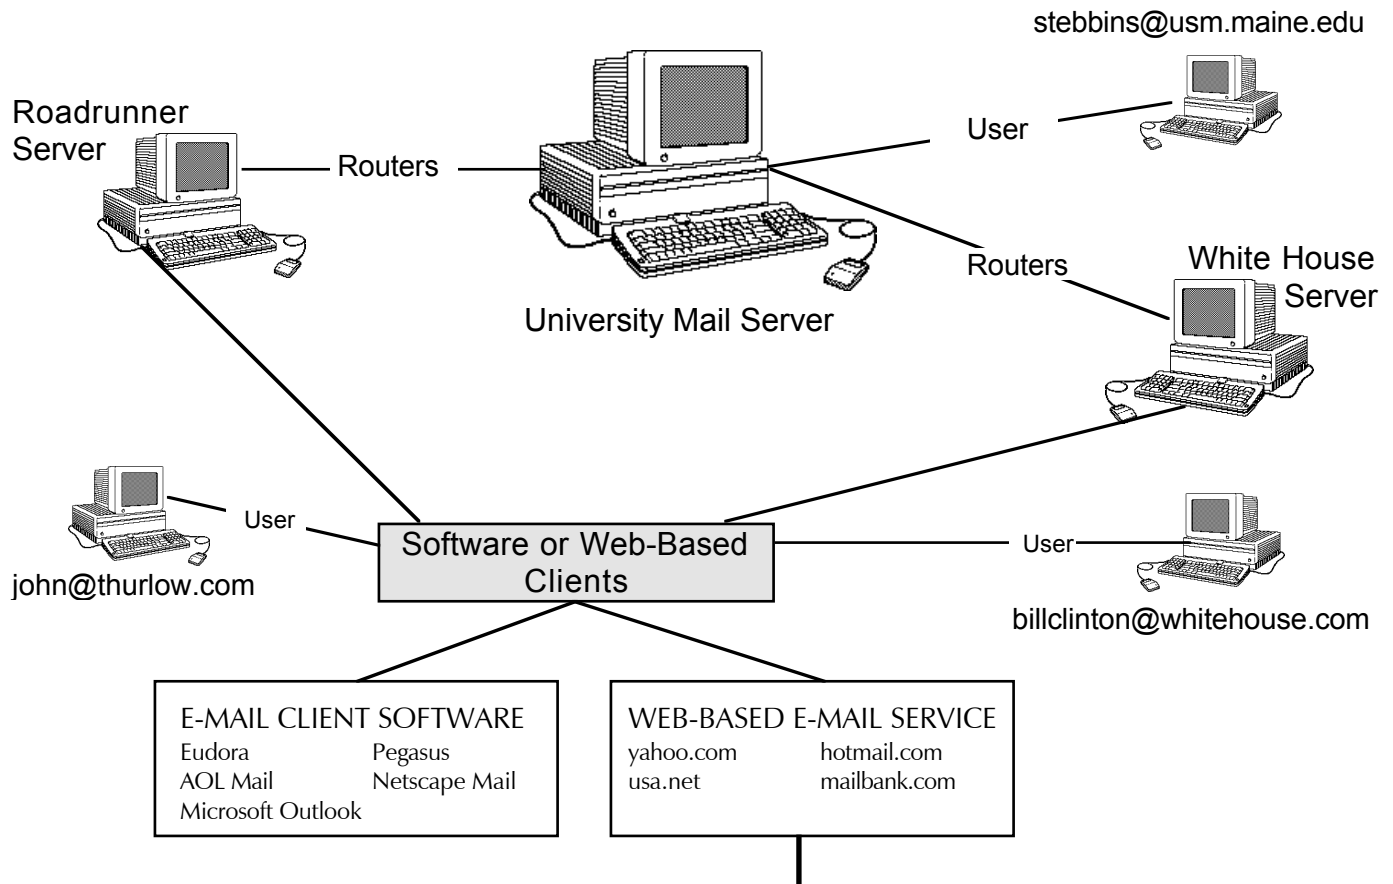

The Internet

These are examples of "Networks" or Nets.
 "Inter" means "between" or "among."
 Net means "network."
 Together, you have the INTERNET!
"A Network of Networks"

Dear Barbara and Bill,

This is the message composition window of IMP, the University's web-based e-mail client. Once this experimental program is perfected it will be a convenient way for students and faculty to use their University e-mail accounts.]
