

Complex Thinking

Organize

How can I put ideas and information in order, arrange them?

Compare

How are things alike and how are they different?

Classify

What categories do things belong in? How do I sort them out?

Induce

What conclusions can I make from the facts and information I have?

Deduce

What conclusion can I make by thinking? What are the rules?

Analyze

What will I observe, study and make decisions about?

Support

What is my opinion and how can I support it with information?

Point of View

What other points of view are there on the subject?

Problem Solve

What steps do I take to solve problems?

Experiment

What do I predict will happen and how do I test it?

Invent

What can I create myself? Is there something I can improve or change?

Decide

What are my decisions? Have I looked at pros and cons?
