EDU 300: Educational Media & Technology

FINAL PROJECT

Assessment Guidelines & Self-Evaluation

PROJECT GOAL

Design a comprehensive web site for which includes selected resources for teachers, children and for personal use. Also, design an instructional unit that is Internet-based and designed for children to perform a specific learning task.

NAME _____

REQUIREMENTS

Site contains a master page (or home page) which easily links to and from all other subpages	YES	NO
Pages permit a logical means for the user to navigate through the site	YES	NO
Site includes at least five subpages (personal, teacher, children, multimedia and lesson)	YES	NO
Teacher page includes ten student-selected sites, annotated as required <u>with</u> logos and 2 URL's	YES	NO
Teacher page includes teacher sites not found on the course resource page	YES	NO
Children's page includes ten sites, annotated as required and have logos, 2 URL's	YES	NO
Children's page includes children's sites not found on the course resource page	YES	NO
Personal page includes five or more sites for personal use with graphics	YES	NO
Multimedia page includes user-controlled multimedia with <u>direct link</u> to the experience	YES	NO
Multimedia page has experiences from various sites	YES	NO
Site includes appropriate images and graphical layout to support the content	YES	NO
Site is uploaded on the USM server. All links, pages and images work properly	YES	NO
Images help organize information, direct the user and improve aesthetics	YES	NO
Principals of excellent visual design (white space, font style and size, and color) are present	YES	NO
Tables, rules, appropriate backgrounds, bullets, buttons visually enhance the design	YES	NO
Standards of effective written communication are attended to (spelling, punctuation, etc.)	YES	NO
Site includes developmentally appropriate online resources for students and are not commercial	YES	NO
Evidence of the use of skills for evaluating online resources is present	YES	NO
An effort was made to make the site accessible to persons with disabilities (some alt. text tags)	YES	NO
Online Lesson page meets the requirements outlined		

Please use the guidelines above to perform a checklist self-evaluation of your final project and provide it to the instructor when you present your project. Simply review your site and check off YES or NO for each requirement. Then give yourself a holistic score. The highest score is **30**. Final projects must be presented in class.

NAME:_____   **Student Score** _____ **of 30**

Online Lesson Page: describe your lesson/activity/task:
